Score	90.6%	81%

INTERNSHIPS

Techlive Solutions | June 2025 - August 2025

- Full Stack Developer Intern
Techlive Solutions, Mohali
July 2025 – August 2025

- Worked on end-to-end development of web applications using the MERN stack.
- Built and optimized RESTful APIs with Node.js and Express.js.
- Designed dynamic front-end interfaces using React.js and Tailwind CSS.
- Managed database operations using MongoDB including CRUD and schema design.
- Collaborated in an Agile team, utilizing Git/GitHub for version control.

Excellence Technology | June 2024 - July 2024

- Front-End Developer Intern
Excellence Technologies, Mohali
June 2024 – July 2024

- Developed a Hostel Management System using the MERN stack.
- Built responsive UIs with React.js, Tailwind CSS, and Bootstrap.
- Integrated APIs, handled state management, and implemented routing.
- Collaborated using Git/GitHub and followed Agile practices.
- Gained hands-on experience in full-stack web development.

PROJECTS

Hostel Management System | June 2024 - December 2024

- Hostel Management System
Frontend Development Intern – Excellence Technologies
Tech Stack: ReactJS, Tailwind CSS, Bootstrap, JavaScript, Node.js, Express.js, MongoDB

Developed a complete Hostel Management System as part of my internship, going beyond frontend responsibilities by independently implementing the MERN stack to build a fully functional web application.

Designed responsive, mobile-first UI using ReactJS, Tailwind CSS, and Bootstrap.

Implemented role-based dashboards for students and administrators with dynamic rendering.

Integrated RESTful APIs for room booking, student registration, fee tracking, and complaint handling.

Built backend logic using Node.js and Express.js and managed data using MongoDB. Demonstrated initiative and full-stack problem-solving skills while fulfilling a frontend development role.
